### **DETAILED ACTION**

Claims 18, 19, 21, 22, 24 and 29-36 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-13.

#### ***Oath/Declaration***

The oath or declaration is not defective. According to MPEP 201.06(c), the patent statute and rules of practice do not require that an oath or declaration include a date of execution. Therefore, a new oath or declaration is not required.

#### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to methods of preparation of the compounds of the formula (I). The novel and nonobvious aspect of this invention involves the substituent on position 3 of the pyrrole ring. The closest prior art of record, WO 2001060814, which discloses compounds which differ on position 3 of the pyrrole ring, fails to teach or suggest applicants' instantly claimed methods of preparation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
